

## diaphragm safety valve MS - heating systems MSS G $\frac{1}{2}$ x G $\frac{3}{4}$

Part no. 42330

diaphragm safety valve MS - heating systems

### Application

For solar thermal systems to protect against overpressure. Suitable for water, water/Antifrogen mixtures, water/Tyfocor mixtures.

### Technical Specifications

#### opening pressure

6 bar

#### Connection

G $\frac{1}{2}$  x G $\frac{3}{4}$

#### Dimensions

W x H x D: 35 x 60 x 45 mm

#### Material

Housing: brass (CW617N)

cap: PA 6, black

#### Operating temperature range

Medium: -20/+160 °C

#### heating capacity

max. 50 kW

#### type approval mark

TÜV.SV.yy-2017.13.SOL

"yy" represents the year of the approval
