

## Pressure transducers HydroFox® DMU 07 FG

Part no. 31821

Pressure transducers HydroFox® DMU 07 for level measurement

### benefits

- flush diaphragm
- without transmission liquid
- mechanically insensitive ceramic sensor
- small temperature error
- high overpressure safety

### Application

For electronic, continuous level measurement of liquids and for pressure measurement of liquids and gases in plant construction.

### Description

Pressure transducers convert physical pressure into an electrical signal proportional to the pressure. HydroFox® DMU 07 uses a capacitance ceramic measuring cell.
