

hydraulic separator for KSV 125 70 kW

Part no. 77317

for heating pump assemblies PrimoTherm®

Application

For distribution of the heating circuit water in sealed heating systems as per EN 12828 from the boiler to the heating pump assemblies PrimoTherm®.

Description

Hydraulic separator for retrofitting boiler manifold KSV (without hydraulic separator).

Technical Specifications

system connections

70 kW
Threaded socket G1¼ female
70 kW
union nut G1½, flat-sealing

Operating temperature range

Medium: max. 110 °C

Flow

70 kW
3 m³/h

System pressure

max. 6 bar

Heat insulation

Polypropylene EPP

Versions
