KEEP FROZEN. REFRIGERATE ANY UNUSED FRUIT PURÉE. DO NOT REFREEZE.

# Benefits of FROZEN FRUIT

## PERFECTLY RIPE.

The minute a fruit is picked, it begins to lose nutrients. Quick-freezing fruit shortly after it is harvested ensures that the fruit remains ripe and helps maintain its nutritional peak.

## TIME SAVER.

Most frozen fruit is prewashed and precut, which saves valuable preparation time in the kitchen.

## LESS PRODUCT WASTE.

Using frozen fruit is not only convenient but often more cost-effective. The shelf life of frozen fruit is far greater than fresh, meaning less product waste.

## SIMPLE INGREDIENTS.

Because freezing preserves foods, there is little need for additional additives or preservatives. Often frozen fruit contains no other ingredients than the fruit itself.

## BETTER BLENDED BEVERAGES.

Using frozen fruit eliminates the need for ice when making smoothies and other blended fruit beverages. This enhances the flavor and keeps beverages from tasting watered-down.
