

While the pools have been closed at Finchley Lido Leisure Centre we have taken the time to improve our poolside area and changing facilities on the ground floor.

The biggest change has been our changing village and family change area. The works included:

- New floor tiles and improved layout
- Brand new lockers
- New cubicles and changing area lay out with more space
- Additional larger cubicles
- New and improved relocated vanity area

We also took the time to improve the air handling within the area which will have a noticeable effect on the air atmosphere for swimmers and spectators.
