IF YOU HAVE MORE TIME AND A BOAT...

These trips are appropriate for drift boats, pontoons or kayaks. Boaters are always responsible for knowing their craft, the nature of the river and their own abilities. Scout before you go!

1. Middle Fork Willamette River-Pengra to Jasper or Clearwater: A few technical spots keep boaters alert on this classic fish-and-float for trout and the occasional salmon or steelhead. A close-in trip that feels like a remote getaway.

2. Willamette River-The Town Run: Put in at Island Park in Springfield or Alton Baker Park in Eugene and float to Beltline. Very productive for summer steelhead starting in late spring and early summer.

3. McKenzie River-Hayden Bridge to Armitage Park: A gentle float with a few technical spots and abundant trout make this stretch relaxing and enjoyable. Catch-and-release, flies and lures only on this reach.

4. Siuslaw River-Whittaker Creek to Lake Creek: A winter steelhead drift boat fishery from January through March.

5. Siuslaw River-Cushman or the Port of Siuslaw: Cushman or the Port of Siuslaw. Productive fall salmon fishery when trolling lures or herring. A power boat is recommended.
